Block 4

Please click here for the participant information sheet.

Staff use of AI participant information sheet

This survey forms part of an independent longitudinal research project examining staff perspectives on the use of Generative Artificial Intelligence in teaching and assessment. It is not part of institutional monitoring, performance management, or compliance processes. The data collected will be analysed solely for research purposes and will not be used to evaluate individual staff practice or to inform University oversight or governance procedures.

This study follows on from data collected in the 2023 to 2024 academic year. As part of the longitudinal design, the survey questions remain the same as those used previously in order to allow meaningful comparison over time. It is recognised that institutional guidance and

practice regarding Generative Artificial Intelligence have evolved since that earlier data collection. In particular, some assessments have been redesigned to permit or actively encourage certain forms of Generative Artificial Intelligence use. Your responses are therefore especially valuable in capturing how perspectives may be shifting within this changing context.

In this survey, references to unacceptable use of Generative Artificial Intelligence refer to uses that would constitute academic misconduct under current University policy. Examples include falsifying or fabricating data using Generative Artificial Intelligence, generating references that do not exist, or paraphrasing AI generated text with the intention of disguising authorship and presenting the work as wholly one's own where this is not permitted. References to acceptable use refer to uses that are consistent with current University policy, for example using Generative Artificial Intelligence to support background research, summarise text, assist with idea generation, or improve clarity of expression where such use is permitted within assessment guidance.

If you have any questions about the study, please contact the principal investigator for this wave of data collection, Dr Caroline Hands, at cahands@liverpool.ac.uk.

Please check the box to confirm you agree with the following points:

1) I confirm that I have read and have understood the information sheet dated 9.11.23 for the above study, or it has been read to me. I have had the opportunity to consider the information, ask questions and have had these answered satisfactorily.
2) I understand that taking part in the study involves the completion on an online survey on topic of GAI use for academic purposes and involves providing optional free text answers.
3) I understand that my participation is voluntary and that I am free to stop taking part and can withdraw from the study at any time (prior to submission of my answers) without giving any reason and without my rights being affected. In addition, I understand that I am free to decline to answer any particular question or questions.
4) I understand that I cannot ask for access to the information I provide and I cannot request the destruction of that information once the form has been submitted because the information is anonymised on submission. I can however choose to not submit the information by closing my browser window.
5) I understand that I should not disclose any identifiable information in the free text boxes but if I do so, and the information provided puts the investigators

under a duty to disclose, then my data will not be kept anonymous.
6) I understand that short extracts of my words may be used in the results of this study. However, I will not be identifiable from these quotations which will be attributed to a pseudonym.
7) I understand that the information I provide will be held securely and in line with data protection requirements at the University of Liverpool.
8) I understand that signed consent forms and completed surveys will be retained on private University of Liverpool OneDrive accounts by the principal investigator until completion of the study.
9) I agree to take part in the above study.

- ○ I agree to the above points and would like to proceed to the survey
- ○ I do not agree to one or more points above and no longer wish to take the survey

Introduction & Instructions

All questions are optional, you can skip any you do not wish to answer.

You should not include any identifiable information in the free text boxes, including information that could identify you, another member of staff, or a student.

It is also not appropriate to discuss specific examples of student work that may breach data protection.

Did you complete the previous version of this survey?

- Yes in 2024
- Maybe
- No

Do you teach undergraduate or postgraduate students?

- Undergraduate
- Postgraduate
- Both

What year groups do you mark assessments for?

Tick all that apply.

- [ ] Undergraduate Year 1
- [ ] Undergraduate Year 2
- [ ] Undergraduate Year 3
- [ ] Undergraduate Year 4
- [ ] Postgraduate

Which faculty does your course belong to?

- ○ Science and Engineering (S&E)
- ○ Humanities & Social Sciences (HSS)
- ○ Health and Life Sciences (HLS)
- ○ Other

PI: GAI on the courses you teach

Have you instructed students to use Generative Artificial Intelligence (GAI) technologies in any assessments or tasks during the previous academic year?

- ○ Yes
- ○ No

If yes, can you briefly describe the assignment(s) or task(s) and how students were expected to use GAI.

Again, if you have instructed students to use GAI, what percentage correctly cited their work generated by GAI?

- ○ Most (70%+)
- ○ Some (40-69%)
- ○ A few (1-39%)
- ○ None (0%)
- ○ Not applicable, students were not instructed to use GAI

Have you explicitly instructed students not to use GAI technologies in any of your assessments or tasks during semester one?

- ○ Yes
- ○ No

If yes, can you briefly describe the assignment(s) or task(s) and how students were instructed not to use GAI.

If applicable, what percentage of students do you believe persisted in using GAI even though you had instructed them not to use this.

- ○ Most (70%+)
- ○ Some (40-69%)
- ○ A few (1-39%)
- ○ None (0%)

Have any of your students approached you with specific questions about GAI?

- Most (70%+)
- Some (40-69%)
- A few (1-39%)
- None (0%)

If applicable, can you briefly provide some examples of the questions students have brought to you regarding GAI?

Do you have any concerns about using GAI tools as part of your teaching or assessment activities? And if so, why?

PII: Acceptable vs unacceptable use of GAI

Have you seen instances of work from students that you would class as unacceptable useage of GAI?

- ○ Yes, a high number of instances
- ○ Yes, a number of instances
- ○ Yes, but only a handful of instances
- ○ No I have not
- ○ Unsure if GAI was acceptably used

Which of the following examples of University defined unacceptable GAI uses have you seen?

Please select all that apply:

- ☐ Student passing off AI generated work as their own
- ☐ Students submitting AI generated work without citation
- ☐ Student using AI to paraphrase the work of another to mask plagiarism
- ☐ Students citing and submitting GAI text which contravenes good academic practices (e.g. using a prompt to "write my conclusion")
- ☐ Students submitting work that conflicts with (1) programme level guidance or, (2) module level guidance or, (3) the instructions provided for the specific piece of assessed work
- ☐ Students uploading data generated by GAI in empirical research projects in contravention of ethical approval conditions
- ☐ Other, please describe in the box provided

Have you seen instances of work from students that you would class as an acceptable use of GAI?

- ○ Yes, a significantly high number of instances
- ○ Yes, a somewhat high number of instances
- ○ Yes, but only a handful of instances
- ○ None

Which of the following examples of University defined acceptable GAI uses have you seen?

Please select all that apply:

- ☐ Background research
- ☐ Identification of core concepts
- ☐ Summarising text
- ☐ Note taking during group discussions
- ☐ Organising work
- ☐ Formatting a reference list
- ☐ Quoting AI generated text for a specific and justified purpose
- ☐ Other, please describe in the box below

So far in the 2023/24 academic year, how many students have you reported for academic misconduct based on their use of GAI?

Under each category, please enter a number. If no report was made, please enter 0.

- [ ] Category A/1
- [ ] Category B/2
- [ ] Category C/3
- [ ] Category D or E /4
- [ ] Unsure of Classification

PIII: Interpretation of academic integrity policy and guidance

Have you found the changes to the academic integrity policy (CoPA Appendix L) helpful in understanding how to approach GAI use in assessments you set?

- ○ Yes
- ○ Yes, Partially
- ○ No, these were not helpful
- ○ No, unaware there had been changes
- ○ No was unaware we had a policy relating to GAI

Please briefly expand on your answer choice below:

Have you found the guidance on acceptable and unacceptable use of GAI helpful in understanding how to approach GAI in the assignments you set

- ○ Yes
- ○ Yes but only partially
- ○ No it wasn't helpful
- ○ No I wasn't aware of the guidance
- ○ Unsure/don't know

Please briefly expand on your answer choice below:

Out of the following cases, please tick all that you view as being acceptable GAI uses.

- [ ] Background research
- [ ] Identification of core concepts
- [ ] Summarising text
- [ ] Note taking during group discussions
- [ ] Organising work
- [ ] Formatting a reference list
- [ ] Quoting AI generated text for specific and justified purpose
- [ ] Other, please write below

If there were any you did not agree with, please briefly describe why?

Please tick all of the following University defined unacceptable GAI use examples that you agree with.

- [ ] Student passing off AI generated work as their own
- [ ] Students submitting AI generated work without citation
- [ ] Student using AI to paraphrase the work of another to mask plagiarism
- [ ] Students citing and submitting GAI text which contravenes good academic practices (e.g. using a prompt to "write my conclusion")
- [ ] Students submitting work that conflicts with (1) programme level guidance or, (2) module level guidance or, (3) the instructions provided for the specific piece of assessed work
- [ ] Students uploading data generated by GAI in empirical research projects in contravention of ethical approval conditions
- [ ] Other examples, please describe in the box below

If there are any examples you do not agree with, please briefly describe why.

Are there any other comments you would like to make in terms of your experiences of student interaction with GAI throughout the 2025/26 academic year?
